EasyPedestal

The Pedestal from EasyRobotics is made to fixture any collaborative robot brand. The construction is in **6 mm** thick powder coated steel with integrated cable trays. The pedestal is fixed to the ground with up to **8x8mm** screws in an industrial and stable design.

With the pedestal the robot arm can be maneuvered 360 degrees around the center of the pedestal.

The pedestal also contains a compartment for the controller unit to protect the critical parts from hazardless environment such as; oil, collision, etc. And also space for hosting other devices. The height of the pedestal from the ground is **925 mm** with a weight of **70 kg**.

The Pedestal from EasyRobotics can be used either as individual or in combination with the standard **ProFeeder** or **ProFeeder Compact**.

COMPACT – save space at your factory floor by combining the EasyPedestal + the ProFeeder Compact – full solution at your hands!

STABILITY – our machines are created from solid metal, where durability is crucial when working with machine tools –tending applications.

STATE-OF –THE - ART DESIGN – our machines are carefully designed making sure flexibility it is important. In most cases, Considering infrastructure can be a headache to manufactures, our machines are made to "Fit" any working station.
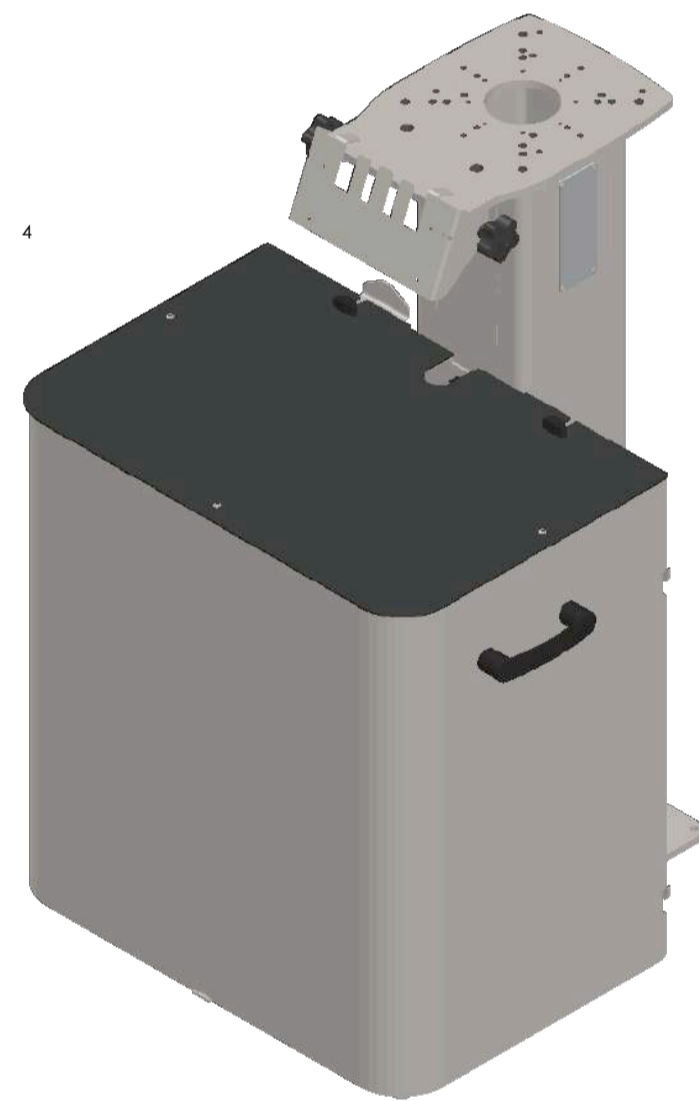

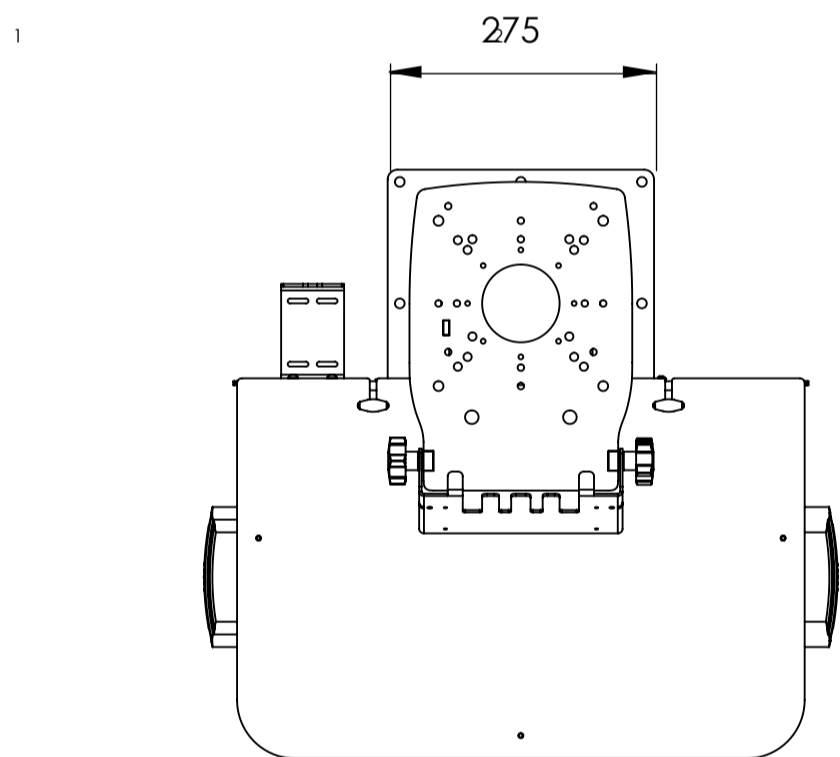

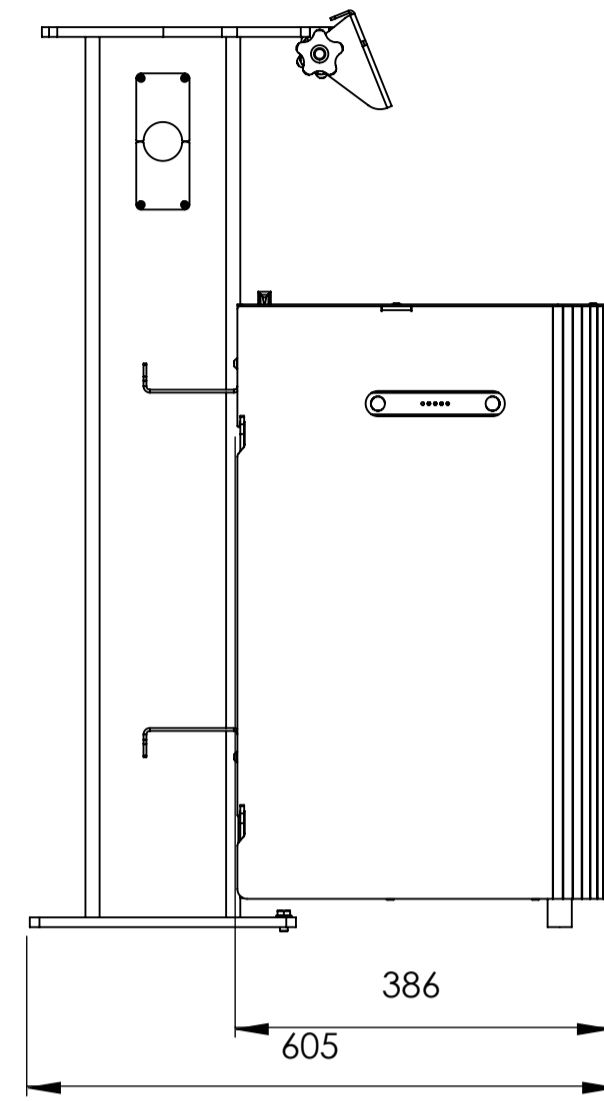

Easy to use
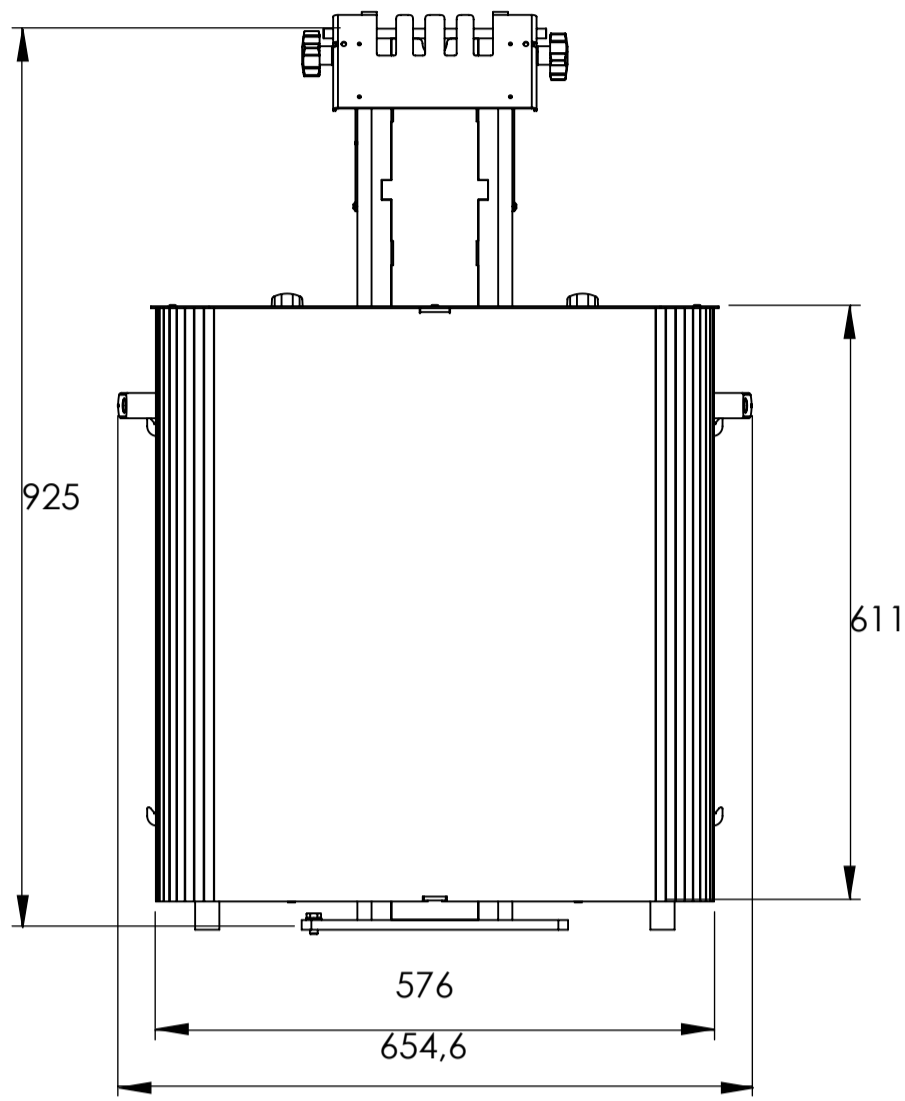

Safety

Cost effective

Easy installation

BENEFITS:

- ✓ **Cable guidance feature**
- ✓ **Mount controller inside the EasyPedestal**
- ✓ **Easy and flexible feeding of CNC machines**
- ✓ **It's compatible with Cobots from Doosan, Hanwha, Kassow and UR**
- ✓ **Support different types of machines and it can be adapted to different workstations**
